

Langhe DOC Favorita

Area: Sides of Belbo Valley

Indigenous vineyard similar in structure to Vermentino from Liguria. In our Langhe it prefers sand and calcareous soils.

With its grapes is obtained a moderately alcoholic wine, which unleashes its natural vitality, due to its early bottling.

Tenuous straw colour, fresh and fruity colour recalling "renetta" apple and grapefruit. Inside the mouth it reveals a delicate acidity, sign of harmonious elegance, accompanied by a persistent end.

Excellent wine for fishes, it matches appetizers in general, cheeses and tender pasta.

To be served fresh at 8-10 °C
